### Berserkir:

These may be selected instead of Knights in any Viking force.

Regardless of how the figure appears, Berserkirs in "Sword & Dagger" move as if unarmoured, count as if wearing LA if attacked, and attack as if using a Polearm.

All Berserkir figures therefore costs the same as "Knight (3pts) LA (3pts) PA (2pts)".

Selecting a Berserkir replaces one of your force's Knights and takes up one of your force's allocation of Polearms.

Berserkir may use Polearm before 950AD, but should not be used often after 1000AD!

Berserkirs may also be equipped with small shield (+1/2 pt) or large shield (+1pt) at the player's discretion.
